VOLUME 37

FRIDAY AUGUST 18th 1944

NUMBER 15

Welcome Home Party For Service Men

A large attendance was present Friday night in the Stake House for the welcome home party tendered Allan Earl, Robert Speckman and Paul Woolley who have recently returned from active service. The program was sponsored by the Next-of-Kin association and Paul H. Redd was in charge.

After singing "O Canada" a short speech of welcome was made by the Chairman and then Misses Margaret Wing and Kathryn Allen played a piano duet.

Allan Earl, who had spent the greater part of four years overseas related some of his experiences and said how glad he was to be at home again. This was followed by a reading by Mrs. Paul H. Redd.

Robert Speckman who was with the 69th Tank Transport Battalion and had been more than three years in England related some of his experiences and said how glad he was to get back to Canada where there was no fog and one could really see the sunshine. Miss Kathleen Holmes sang a vocal solo following this talk.

Stoker Paul Woolley who had been at sea for two years with the Royal Canadian Navy, mostly in Convoy work related some of his experiences and told of the convoy trips he had made. Paul was a member of the crew of the Albatross, but happened to be on leave when the vessel sank. Paul said he felt very sorry when he heard of the sinking but was glad of the gallant role his ship had played.

J. W. Evans, former Bishop, then offered a prayer for Victory and the protection of the men and women in the service of their country, and after the singing of the National Anthem the meeting adjourned.

Brick Laying Commences

BRICK LAYING PROCEEDING.
The walls of the Hospital are going up rapidly and another week will see the building ready for the getting bricklayers as the ones who had been hired for the job were held up waiting for the brick, and when the brick arrived they were on other jobs and could not be released at once. A good crew is on now and the work is going ahead rapidly.

Chairman Paul Moreland was in Calgary last week and a good sale of bonds is reported there. He also placed the order for the linens and so on for the Hospital. A drive is being planned locally to assist in the furnishing of the building and when you are asked for your contribution, remember that everything you can do to assist will benefit our town and district for years to come and will make life in Raymond more pleasant and we hope more happy.

NEWS NOTES

L. B. Duncombe was in the Hospital for a couple of days early this week.

Bricklaying at the new Hospital was underway the first of the week with Joe Strong in charge. Scarcity of skilled labor is slowing up progress on the building.

Bert Leavitt of the R.C.A.F. who is about ready to graduate as pilot was home on week-end leave from his school to visit with his parents before his father returns to his work on Vancouver Island.

Dud Palmer of the R.C.A.F. was home on leave over the week-end.

Pres. Ernie Jensen and Secretary Roy Stone of the local Rotary Club were in Saskatoon, Sask. over the week-end attending the President's and Secretaries Conference. They returned home Thursday.

NEWS NOTES

Mr. and Mrs. Wesley Williams and children of Redlaw have spent a week with relatives and friends here.

Dr. and Mrs. Madill and family returned home from Waterton Monday night after an extended vacation there.

Mr. and Mrs. Orlando Rich of Calgary were week end guests of Mr. and Mrs. J. B. Barker after finishing their vacation at Waterton and with relatives in Nagsrath. Mr. Rich is a brother of Mrs. Barker.

Mr. and Mrs. Milo C. Vance attended the Sunday afternoon session of Conference in Lethbridge. Elder G. O. Albert Smith, president of the Quorum of the Twelve was there representing the General authorities of the Church.

A rain which commenced Sunday, continuing throughout the night and into Monday, brought half an inch of much needed and welcome rain. Too late to be any assistance to the grain crop, it will however improve the pastures and the third cutting of alfalfa may make a little feed in stubbled fields.

Skies cleared Monday afternoon and the night was clear and dry but on Tuesday morning again the clouds gathered and a light drizzle set in. If this half inch of moisture could have come a month ago it would have made a big difference to the ultimate crop returns. Second alfalfa is pretty well all in the stack now and generally speaking was a very good crop as most fields were well irrigated and the hot weather accounted for heavy and rapid growth. Harvesting was getting under way all over the district when the rain

came but will be held up for a day or two yet before the ground and the grain is dry. Most fields are light but Evans Bros. combined a field of spring grain which went 22 bushels per acre and weighed 53 lbs per bushel.

NEWS NOTES

At Rotary on Monday a very enjoyable meeting was held when the members present each spent a couple of minutes telling the others what he had gotten out of Rotary during his connection with it.

Final count of the votes including 22 service men's vote, conducted by the Returning Officer the end of the week gave the following totals: Bishop, 415; Low, 1,619; Madge, 480; Walker, 631. Total votes cast, 3,145.

Bishop Ashton Is Conference Speaker

Quarterly Conference of the Taylor Stake of Zion was held in the Stake House Saturday evening and Sunday with Bishop Marvin O. Ashton of the Presiding Bishopric representing the General authorities.

On Saturday afternoon a softball tournament for members of the Aaronic Priesthood Quorums of the Stake was held and some very interesting games were played and the contests still going strong when the rain put an end to it at about 4:30 and all activities ceased. That evening a meeting for Advisors, Teachers and Supervisors of the Aaronic Priesthood, with all others interested was held and here the specific questions and problems of this work were discussed and the value of the boy to the Church and the absolute necessity of keeping him active, interested and busy was stressed.

At 9:15 Sunday morning a Priesthood meeting was held and opportunities and responsibilities of the men

in charge of the teen age boys was stressed. Speakers here were Elder Ross Mendenhall speaking on the topic "Preparing a Priest for Ordination to the Melchizedic Priesthood," Elder A. E. Hancock speaking on "My Contribution to the youth of the Church," Elder W. E. Brown on "What Can I do to assist the Teacher thru this critical period of his life?" and Wm. Redd, speaking without notice on "The Responsibilities of Receiving the Boys in the Priesthood."

Bishop Ashton then spoke to the group on the necessity of ability on the part of advisors to win the friendship, confidence and respect of the boy. Our boys are one of our greatest assets and we must not neglect them. Any leader or advisor should hang his head in shame if he ever did anything or said anything or through any neglect of his made the boys in his charge feel that he was letting them down. You who are leaders should take your work seriously and give the boys your very best.

SUNDAY MORNING

At the 10:30 session on Sunday three short talks were given by the young people of the Stake as follows: Blayne Stringam, a deacon of the Walling Ward talked on "The Quorum Advisor and the Boy," Philip Proctor a Priest of the Stirling ward spoke on "The Value of Parental Example" and Miss Duree Snow spoke on the topic "Blessings to the Women of the Church through the Priesthood."

Elder LeRoy Anderson recently returned from the Canadian Mission expressed his pleasure in being home, his gratitude for the opportunity of filling a mission and reported on the opportunities that existed now for the preaching of the Gospel and the very serious shortage of missionaries.

Bishop Ashton had two young people, Miss Amy Allen and Bud Palmer called from the audience and he questioned them regarding their attitude toward church standards and had them give their answers to the audience. He then related two or three experiences he had related of the fight some young people had made to maintain the standards of the church and the respect that they had won for them and he urged his audience to set the example of right living, encourage it in the boys and girls and above all else congratulate the youth of the Church when they do live a good latter-day Saint life and abstain from those things which are forbidden.

SUNDAY AFTERNOON

A number of returned missionaries were called on to report in this meeting as follows: Elder Robert Walker, Mrs. S. B. Smith and Miss Beth Briggs, who had all labored in the Western Canadian Mission reported their labors and expressed their gratitude and happiness at having had the opportunity of representing the Church in this capacity. Misses Alice Ackroyd and Irene Briggs, who are leaving soon for a mission expressed their joy at the opportunity of going and bore testimony.

JOE CITIZEN SAYS—

I see we're going to have a call to buy more Victory Bonds this fall. And I for one don't mean to wait till salesmen are at my gate before I count just what is what. I haven't always cash on hand and even in easier days like these the dollar bills don't grow on trees. No, Sir! I'm figuring right now the bonds I aim to buy—and how. The lads will find me set to sign and save on both their time & mine. "If's," "and's" and "out's" should n't be scrapped when war bonds purchases are mapped. The Man who can, but won't dig in in this small way to help to win without palaver and debate just hasn't got his values straight.

"I guess it's up to me!"

Now that I can go I'm not going to stick around and let the other fellows do it.

Bill and Jack went over last week, and Fred's been over there a year. Now it's my chance:

It's going to take months of training before I can get fighting-fit, so I'd better get moving today:

Yes sir! I'm going now, to tell Dad and Mom that I'm on my way to sign up.

BISHOP ASHTON IS

CONFERENCE SPEAKER

only to the truthfulness of the work.

Before the presentation of the ninth articles of the Church and Stake, President T. Geo. Wood announced the release of the following: Kenneth C. Hindley as Secretary of the 1st Elders Quorum, Wm. L. Nalder as his counselors of the 6th Elders Quorum, C. C. Spencer as Stake Mission President and Howard Fletcher as of a Mr. Whitaker, who was with

Stake Mission Secretary. Then the Stake Clerk read the list of authorities as now constituted and they were all sustained by the unified hand.

Editor T. Geo. Wood and Melvin T. King of the Stake Presidency both spoke and expressed their joy at being privileged to serve the people of the Stake and the pleasure over the fine record in activity in Church work that our Stake was making. They also bore testimony to the divinity of the work.

Bishop Ashton spoke of the value of a mission in a person's life and said that it would bring out the best that people had in them. There were very few who were not very successful missionaries and who did not return home full of faith and good works and an honor to themselves and the Church. The best investment any of us can make is the investment of having our children engage in missionary labors for the Church. He also bore testimony to the experiences of people he had met, and especially the story of a Mr. Whitaker, who was with

Edith Rickonbacker during their living time in the Pacific. Bishop Ashton said he had heard this story related personally and later asked Mr. Whitaker what his emotions were during the time and was told that some "permanence" and that he was with them urging them to hang on when all seemed lost. He preached a powerful sermon on prayer and urged his listeners to keep in tune with the powers of eternity through prayer.

The Stake Clerk was present at this session of the Conference and offered a fine program of hymns and hymns which were warmly enjoyed by the large congregation present. This organization is judged to be highly commendable by the speakers for their effective work.

SUNDAY EVENING

The Mutual had charge of the Sunday evening meeting and there was a large crowd of young people in attendance. The Mutual chorals was present to do the singing and added much to this session.

Mrs. J. H. Walker, president of the Y.W.M.C.A., spoke briefly and welcomed the congregation to the meeting, and the principal speaker of the session was Bishop Ashton who encouraged the young men and young women of the Church to uphold its standards in every way, to respect and honor the Priesthood and the blessings it brought into their lives, and to think of the coming year when they were thinking of marriage and raise a family that would be an honor to themselves and a credit to their parents.

PRODUCING PENICILLIN

Plant in Montreal is Now Making The Wonder Drug

The first building to be erected in the Dominion for the specific purpose of producing penicillin will be in full scale operation in the near future, officials announced in Montreal.

The plant, government owned but managed by Ayerst, McKenna and Harrison, Ltd., already is turning out the wonder drug but officials said it will not be operating at top production capacity for awhile, when a group of laboratories being erected on the outskirts of the city are fully completed.

NEWS NOTES

Fashion note: There will be little change in men's pockets this year.

Mr. and Mrs. Loren Larson and Mrs. Vera C. 55 and baby left on Monday afternoon for a week's holiday in Waterton Park.

Rastus: "Say, Sambo, what time in your life does ya' think ya' was scared da worst?"

Sambo: "Once when ah waz callin' on a hen-house an' da farmer come in an' caught me. Boy, wuz ah scared."

Rastus: "How are ya' shuah dat wuz da worstest ya' evah ben scared?"

Sambo: "Chuse da farmer grab me by da shoulder an' say: 'White boy, what ya' doin' heah'."

"It's an ideal match."

"What makes you think that?"

"Well he has money and she knows how to spend it."

The most trifling actions that affect a man's credit are to be regarded. The sound of your hammer at five in the morning, or at nine at night, heard by a creditor, makes him easy six months longer, but if he sees you at the billiard table, or you should be at work, he sends for hears your voice at a tavern, when his money the next day

SPOKERS SPREAD

TOMATO DISEASE

Blank your cigarette and wash your hands before working around tomato plants. This is not another of those wartime regulations, but sound advice to follow at all times.

A good crop of tomatoes comes only from strong, healthy plants. A tomato plant infected with a virus disease, such as mosaic, puckers up its leaves, its size is stunted and its growth, spindly. Yet many gardeners, by cultivating and harvesting tomatoes unconsciously spread this disease.

Plant pathologists of the Dominion Department of Agriculture say that tomato mosaic is found not only in tomatoes, but in tobacco. They say that it has been proved that the use of tobacco by gardeners working with tomatoes may be responsible for infecting the plants with mosaic. They have demonstrated in the Dominion Laboratory of Plant Pathology at St. Charles, Ont., that tobacco may adhere to a worker's fingers and be spread by contact to tomato plants during such cultural operations as pruning, tying and staking.

The danger of smoke spreading mosaic is greatest when they use natural leaf tobacco, or when they roll their own. Mosaic is found in most houses of smoking tobacco and of chewing tobacco, too. For this reason, men who "chew" should spit out their spit before working in the garden around tomato plants.

SMILE AWHILE

"Walter, this is a miserably small steak."

"Yes, sir, but you'll find it will take you a long time to eat it."

"I understand this church is strictly nonsectarian," observed the visitor. "Oh, yes," replied the minister, "we whitewashed it from the foundation to the steeple and there isn't an insect in it." —Capper's Weekly.

It Doesn't Leave a Lot for the Civilian

WHEN war demands have been filled . . . when invasion gasoline, aviation gasoline, Navy fuel oil, petroleum for the manufacture of explosives, synthetic rubber, and gasoline for war industry, farming and essential trucking all have been taken from Canada's oil supply—it doesn't leave a lot for the civilian!

Figure it out for yourself. It takes 5,250,000 gallons of gasoline to fuel 5,000 bombers and fighters for a mission over Germany. It takes enough oil for one fueling of a battleship to heat an average house for 350 years. It takes 18,000 gallons of gasoline to keep one armoured division on the move for one hour.

From petroleum and petroleum gases we obtain the gasoline and fuels needed to power planes and ships and tanks as well as the raw material for acetone, ammonia and toluol for explosives, organic chemicals for anaesthetics, a naphthas for camouflage paints and plastics and resins for war weapons production.

This is why civilian gasoline is short. This is why it's up to every motorist, to every owner of an oil-heated home,

to exercise the strictest economy in gasoline or fuel oil usage. Every gallon we can do without here at home is one gallon more for the fighting men. And they need every gallon they can get.

Two full years of gasoline rationing and fuel oil control in Canada have saved 393,000,000 gallons of gasoline and 175 million gallons of fuel oil—a total saving of 568,000,000 gallons of petroleum products. Yet, despite this saving, gasoline stocks on hand in Canada, as of March 31st, this year, were 55,000,000 gallons less than at the commencement of rationing, April 1, 1942.

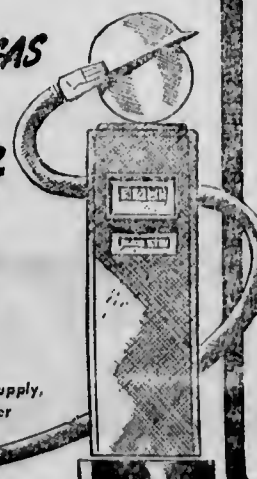

Oil has a mighty war job to do—yet supplies are short and are constantly dwindling. Oil powers the attack on every front. Oil can mean the difference between success or failure, between light casualty lists and heavy. Oil is vital ammunition—not to be wasted, not to be needlessly, frivolously spent.

Answering Your Questions about the Gasoline Shortage

What are Canada's total yearly requirements of motor gasoline? Approximately 800,000,000 gallons. Do these requirements have to cover both military and civilian needs? . . . Yes. Why cannot this supply be increased? . . . Because total hemispheric supplies are inadequate to meet both the colossal war demand and civilian needs. There is not enough oil, there are not enough tankers, for both. How much of Canada's petroleum needs is supplied from Canadian wells? . . . Only 15%. Why can't this home production be increased? . . . Every effort is being made to do so. More new wells are being drilled or prepared for drilling, than at any time in the history of Western Canada, but we have yet to find a new Turner Valley. War does not wait for new production.

SEEDING TIME FOR GRASSES

The degree of success in establishing stands of grasses in Western Canada is predetermined to a large extent by the time of seeding. The best time to seed is when moisture and temperature conditions and insect populations are favorable. As these vary from year to year the best time to seed grasses may vary from year to year.

Grasses thrive best under cool moist conditions. It is very important that grass seedlings are well established and vigorous before hot dry midsummer. The time these seedlings make their best growth is in the early fall and spring. In general the best time to seed is in the early fall between August 20 and September 15. If moisture conditions are favorable, and usually they are at that time, the seedlings make very good growth before freeze-up. Growth resumes early in the spring and by midsummer the stand is sufficiently well rooted to resist the desiccating effect of hot winds and the sun.

During some years grasshoppers are very numerous in the early fall and it may be advisable to withhold seeding until late fall, just prior to freeze-up. Seed put in the ground in the late fall does not germinate until spring but because it is in the soil it germinates earlier and makes better use of run-off moisture than spring seeded grass.

If planning to seed down grass land the best time to seed is in the early fall.

Applicant—I'm sorry I've lost Lady Bigwig's reference, but these crested spoons will show I worked there.

Naomi: "I'll bet you 20 dollars that I'll never marry you."

**MARATHON
RUSTPROOF
COMPOUND**
"KILLS" RUST
—KEEPS RUST AWAY

STOPPING rust from ruining your farm equipment—and your car or truck—is now as simple as A.B.C. with Marathon Rustproof Compound.

It is inexpensive, too! For, Marathon Rustproof Compound is reasonably priced and easy to apply. It can be brushed on or, when diluted with kerosene or painters' naphtha, sprayed with an ordinary insect spray gun.

Outdoor tests have shown that Marathon Rustproof Compound has given "perfect protection against rust" for nearly a year and a half—while grease and oils (commonly used as rust preventives) failed in as little as from 7 to 30 days.

Knowing how costly Rust can be, why wait another day? Get a 25-lb. pail of Marathon Rustproof Compound. It fights rust these 3 ways—(1) Prevents rust formation. (2) Penetrates existing rust and stops further rusting. (3) Loosens rust so that it is removed easily. Yes, don't delay if you would "kill" rust and keep it away!

SHUR-GAIN News OF THE WEEK

YOUR HOGS CAN BRING YOU EXTRA DOLLARS

Whether you have four hogs, forty hogs or four hundred hogs, you can save more than \$300 per hog, in feed costs, the SHUR-GAIN WAY.

These are actual facts—proved not only at the SHUR-GAIN Experimental Farm, but on thousands of farms in Alberta. And here's the reason:

First, there are carbohydrates (or starches) which grain contains in abundance. Then, proteins, minerals and vitamins are necessary — which grain contains in very limited quantities!

SHUR-GAIN HOG CONCENTRATE combines the correct proteins, minerals and vitamins which must be added to grains, to make a BALANCED FEED! Now let's just consider the saving in grain when you mix it with SHUR-GAIN HOG CONCENTRATE.

It takes 22 tons of grain alone to feed forty hogs. But, if you mix your grain with SHUR-GAIN HOG CONCENTRATE, forty hogs will only require fourteen tons of grain and one ton of SHUR-GAIN HOG CONCENTRATE.

In other words, one ton of SHUR-GAIN HOG CONCENTRATE saves eight tons of grain! If you are short of grain, make it go farther, by feeding the SHUR-GAIN way. If you have more grain than you require, make the saving the SHUR-GAIN way, and sell your surplus to other farmers who need it.

The next time you are in town, drop in and see your local SHUR-GAIN dealer. There is no shortage of SHUR-GAIN FEEDS and all dealers can fill your full requirements. Ask for SHUR-GAIN HOG CONCENTRATE and remember that SHUR-GAIN MAKES AND SAVES YOU MONEY!
